Backend: Node JS, Express JS
Frontend: HTML, CSS, JavaScript, React, Next JS
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Vs Code, Postman
Productivity Tools: Microsoft Office
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Shiv Shakti Multi Service — Business Website | *Next.js, React, TypeScript, Tailwind CSS, Vercel* **Live**

- Developed a responsive business website with a clean and user-friendly interface.
- Implemented responsive layouts and reusable React/Next.js components.
- Integrated contact and enquiry functionality for customer communication.
- Configured custom domain and deployed the website on Vercel.
- Worked on domain/DNS configuration and email integration for business communication.
- Optimized the website for responsive performance across desktop and mobile devices.

RENEWMART - PRODUCT RECYCLE WEBSITE | *Spring Boot, React, Kafka, MongoDB, SQL, Keycloak* **Live**

- Developed a full-stack e-commerce platform for buying and selling refurbished and recycled products using Flask and MySQL.
- Designed responsive user interfaces with HTML, CSS, and JavaScript, featuring product browsing, search, and category filtering.
- Implemented secure user authentication, product management, and order handling using the Flask framework.
- Integrated MySQL database to manage user accounts, product inventory, and transaction records efficiently.
- Followed responsive design principles and clean coding standards to deliver a scalable and user-friendly web application.
